Natur Grün 2020

Variety	Grüner Veltliner
Cultivation	BIOwein AT-BIO-402, L22003
Origin	Mittelburgenland, Horitschon
Soil	Loamy brown soil - rich in iron
Harvest	September 2020
Maturation	80% fermentation in the vat on the mash for 12 days; 20% fermentation in steel tanks for 12 days; Storage on the fine lees until bottling; No additive was ever added to the wine; If sulfur is present, it originates from spontaneous fermentation.
Bottled	01.06.2021
Taste	This wine does not live from its fruitiness, it creates its tension and drinking pleasure on the palate.
Values	12,0 % vol alcohol 0,9 g/l residual sugar

Best After a few years of storage, the wine will improve in quality. Enjoy chilled.
Natur Grün can be used in many ways as a food companion.

Comment This unusual, cloudy wine is the counterpart to the many fruity Grüner Veltliners that are saturating the market. The aging on the mash gives it depth, especially on the palate. This is accompanied by a variety of different, perhaps new aroma components. In addition, the wine has a strong, robust middle structure with good length.
